Enterprise Academy Administration & Operating System

EXECUTIVE OPERATIONS HANDBOOK

ADMINISTRATOR COMPLETE OPERATIONS MANUAL

An exhaustive, screen-by-screen, button-by-button manual covering 100% of academy features: onboarding, role security, student admissions, fee invoicing, attendance tracking, assessment grading, certification, financial reporting, and compliance audit trail.

DOCUMENT SCOPE

Complete A-to-Z Feature Reference

AUTHORIZED ROLES

Executive Administrator (role='admin')

SOFTWARE VERSION

Thoorigai Core Production v1.0.0

VERIFICATION STANDARD

E2E Playwright Audited & Verified

00 Complete Administrator Sitemap & Route Directory

Below is the complete architectural layout of every accessible administrative view, URL, and operational capability in the system.

1. Executive Dashboard

/

Central command & financial overview

- 8 Real-time KPI Metric cards
- Financial Overview vs Academic View toggle
- Course mix table & active batch counter
- Add Student executive quick-action

2. Students Directory

/students

Comprehensive learner registry

- Filter tabs: All, Active, Completed, Paused
- Add student multi-step modal
- Tuition fee concession calculator
- Installment schedule & balance tracking

3. Invoices & Billing

/invoices

Tax-compliant billing ledger

- Paid, Partially Paid & Overdue filters
- Record offline payment modal (UPI/Cash/NEFT)
- Download official GST PDF invoices
- Automated CGST/SGST/IGST calculation

4. Courses & Curriculum

/courses

Program catalog & pricing tiers

- Create course & set duration/tuition
- Tiers: Essential, Elite, Internship
- Assign primary certified trainers
- Map competencies & skill tags

5. Course Materials

/materials

Encrypted digital file repository

- Filter assets by course module
- Upload lecture slides & code files (up to 50MB)
- Downloadable curriculum documents
- Secure presigned cloud storage bucket

6. Attendance Roster

/attendance

Daily cohort roll-call management

- Batch & date picker controls
- One-click "Mark All Present" shortcut
- Status toggles: Present, Absent, Late, Excused
- Debounced automated database saving

7. Assessments Studio

/assessments

Academic grading & Google Forms sync

- Create tests, assignments & capstones
- Sync Google Forms & Sheets response URLs
- Grading Studio: marks & qualitative remarks
- Single-result deletion & re-evaluation

8. Certificates Registry

/certificates

Official credentialing & verification

- Automated eligibility checks (fees + marks)
- Generate tamper-proof verification ID
- Download printable high-res PDF certificate
- Public /verify portal with scan-to-verify QR

9. Reports & Analytics

/reports

Financial & academic business intelligence

- Monthly revenue collection run-rate
- Course profitability & GST summary
- Academic pass rates & attendance stats
- One-click CSV exports for accounting

10. Audit Log Forensics

/audit-log

Immutable chronological database trail

- Real-time database trigger logging
- Actor, action, entity & timestamp tracking
- Trace actions by Correlation ID
- Inspect raw JSON modification payload

11. Access & Role Security

/settings/users

User accounts & OTP invite protocol

- Approve pending signups as Admin or Staff
- Generate single-use OTP codes (1h-7d expiry)
- Edit user metadata & phone contacts
- Danger Zone: Revoke access or remove user

12. System Configuration

/settings/*

Tax, brand & academic taxonomies

- GST Settings (/settings/gst)
- Brand Information (/settings/brand)
- Trainer Assignments (/settings/trainers)
- Course Categories & Skill Tags

01 System Authentication & Login Flow

Route: /login

Administrators access the enterprise portal through email and password authentication. The server sets an encrypted, HttpOnly session cookie and verifies executive role permissions.

Figure 1.1: Sign-In portal with email, password fields, and submit action.

Step	Control / Action	Input / Details	System Outcome
1	Work Email Input	Enter registered admin email (e.g. admin@thoorigai.test).	Validates RFC 5322 syntax; flags malformed inputs.
2	Password Input	Enter confidential administrator password.	Masked entry with support for secure password managers.
3	Sign In Button	Click to submit credentials to /api/auth/login.	Authenticates against Supabase Auth, updates JWT app_metadata with profile role, and redirects to Dashboard.

02 Global Header, Quick Search & Notifications

Global Topbar Component

Present across every administrative page, the topbar provides instant global student search, unread system alerts, user settings access, and session termination.

Figure 2.1: Global Topbar displaying instant search bar, notification dropdown, and account actions.

Step	Control	Interaction	Action Performed
1	Global Instant Search	Click search bar or press keyboard shortcut Ctr+1+K / Cmd+K.	Instant typeahead queries students by name, register ID, phone, or invoices without page reload.
2	Notifications Center	Click the bell icon to toggle the notification drawer.	Displays system alerts (pending approvals, new registrations, payment receipts) with "Mark All Read".
3	Account Settings	Click the profile avatar or settings icon.	Navigates directly to /settings/user to update credentials or personal contact details.
4	Secure Sign Out	Click "Sign out" button on top-right.	Calls /api/auth/logout, purges session cookies, and safely redirects to /login.

03 Executive Dashboard & KPI Intelligence

Route: /

The Executive Dashboard aggregates high-level institutional metrics: revenue collections, pending student balances, collection efficiency, active enrollments, and academic progress.

Figure 3.1: Executive Dashboard with live KPI cards, tab toggles, and enrollment quick-action.

Step	Element	Description	Workflow Triggered
1	Add Student CTA	Top-right primary button on executive header.	Triggers enrollment modal instantly from any view without switching pages.
2	Financial KPI Cards	Live cards: Revenue Collected, Enrolled Cohort Value, Pending Balance, Collection Efficiency (%).	Aggregates payment ledgers directly from Postgres database in real time.
3	Academic Tab Toggle	Click "Staff & Academic Data" toggle button.	Switches dashboard view to classroom operational metrics (active cohorts, attendance rates).
4	Master Navigation Sidebar	Persistent left command bar.	Provides one-click navigation to all 10 core administrative sections and settings modules.

Staff & Academic Data View

Figure 3.2: Academic view displaying cohort attendance, upcoming sessions, and pending test grading.

04 User Management & Security Access Control

Route: /settings/users

Full identity and access management: reviewing pending signups, generating time-bound OTP invite codes, editing staff metadata, or revoking access.

Figure 4.1: Users directory displaying active accounts, pending registrations, and role approval actions.

Step	Action	Target	Security Outcome
1	Generate Invite Code	Top CTA button above user directory.	Opens the OTP configuration dialog to create single-use registration tokens.
2	User Directory Roster	Interactive table of registered staff and admins.	Click "Settings & Info" on any row to edit contact details, phone, or departmental info.
3	Approve as Admin	Approval button next to pending user registration.	Elevates user to full Administrator; updates JWT metadata and grants unrestricted access.
4	Approve as Staff	Approval button next to pending user registration.	Activates user as Staff; restricts access to classroom, attendance, and assessment tools.

Generating Single-Use OTP Passcodes

Figure 4.2: Scoped invitation modal with color-coded Staff vs Admin selection and expiration windows.

Step	Control	Instructions	Behavior
1	Staff Access Card	Select for instructional staff & trainers.	Generates STAFF-XXXX code. Confers standard classroom permissions.
2	Admin Access Card	Select for executive administrators (royal purple theme).	Generates ADMIN-XXXX code. Grants complete executive permissions.
3	Expiration Window	Choose validity: 1 Hour (Express), 24 Hours, 3 Days, or 7 Days.	Tokens automatically expire and burn after this timestamp.
4	Email Restriction	Optional: enter candidate's exact work email.	Enforces that only this exact email address can redeem the generated invite code.
5	Generate Code CTA	Click to generate cryptographic token.	Copies single-use link: <code>https://app/signup?code=...</code> to clipboard.

User Details & Danger Zone Actions

Figure 4.3: User metadata editor and Account Danger Zone (Revoke Access / Remove User).

Step	Element	Description	Action Performed
1	Phone Numbers	Primary mobile, alternate phone, and emergency contact.	Updates trainer contact card used in classroom coordination.
2	View User Log	Button deep-linking to /audit-log.	Filters the entire database audit trail to show all actions performed by this user.
3	Revoke Access	Click "Revoke Access (Set Pending)".	Immediately demotes user to pending, invalidating active sessions.
4	Remove User	Destructive action button.	Prompts confirmation dialog; permanently purges profile and auth credentials.
5	Save Changes	Click "Save User Details".	Persists profile updates to database with immediate UI confirmation.

05 Student Lifecycle & Enrollment Management

Route: /students

Master learner registry managing enrollment, tuition fee installments, course batch assignments, and academic status.

Figure 5.2: Student admission form with demographic inputs, course selection, and initial installment.

Step	Form Section	Fields & Validations	System Consequence
1	Student Legal Name	Full name as it should appear on official completion certificates.	Validated against minimum 2 characters; creates unique registration profile.
2	Course Selection	Choose target program from course catalog dropdown.	Automatically populates standard tuition fee and duration.
3	Batch Start Date	Calendar date picker for session commencement.	Assigns learner to the active cohort schedule for roll-call attendance.
4	Contact Information	Primary mobile (+91), email, guardian name, guardian mobile, city, and area.	Enables automated WhatsApp / email attendance notifications.
5	Save Record CTA	Click "Save Student & Create Invoice".	Generates student registration ID, creates billing ledger row, and logs audit event.

06 Invoicing, Payment Recording & GST Compliance

Route: /invoices

Financial ledger compliant with Indian GST laws (HSN/SAC 999293). Record offline tuition fee payments, track installment schedules, and issue digital tax invoices.

Figure 6.1: Financial billing ledger with status filters, payment CTA, and invoice download buttons.

Step	Control	Description	Action / Output
1	Record Payment CTA	Primary button above billing ledger.	Opens payment recording modal to log incoming offline fee installments.
2	Billing Status Tabs	Tabs: All Invoices, Paid, Partially Paid, Overdue.	Filters ledger rows instantly based on outstanding fee balance.
3	GST Tax Invoices Table	Displays Invoice #, Student Name, Total Billed, Paid Amount, and Balance.	Maintains an immutable record of all institutional receivables and tax liabilities.
4	Download PDF Invoice	Download button next to each invoice row.	Generates official PDF tax invoice with ThoorigAI GSTIN, CGST/SGST breakdown, and QR code.

Admin account

Figure 6.2: Offline payment recording modal with student selector and payment mode options.

Step	Field	Input Required	Financial Accounting Effect
1	Select Student	Search student by name or register ID.	Displays current outstanding balance and course fee breakdown.
2	Installment Amount	Enter payment amount in Indian Rupees (INR).	Validates amount cannot exceed outstanding balance unless advance.
3	Payment Mode	Select: UPI (GPay/PhonePe), Cash, Bank Transfer (NEFT/IMPS), or Cheque.	Classifies payment method for accounting ledger export.
4	Transaction Reference	Enter UPI UTR Number, Bank Transaction Ref, or Cash Receipt #.	Stores unique transaction audit reference to prevent double entry.
5	Save Payment CTA	Click "Save Payment & Issue Receipt".	Deducts balance, updates invoice status, and records transaction in audit log.

07 Course Catalog & Curriculum Configuration

Route: /courses

Configure the academy course catalog, pricing tiers (Essential, Elite, Internship), syllabus duration, and assign certified trainers.

Figure 7.1: Course catalog with tier badges, student counts, and course creation triggers.

Step	Element	Description	Action Performed
1	Add New Course CTA	Top-right button triggering the course builder.	Opens modal to create a new academic course in the curriculum catalog.
2	Course Catalog & Pricing	Grid of all active courses with duration, fee, and enrolled students.	Click any card to modify syllabus modules, adjust pricing, or archive programs.

08 Course Materials & Digital Asset Repository

Route: /materials

Digital asset management backed by encrypted cloud storage. Upload presentation slides, lab code files, syllabus guides, and reference documents.

Figure 8.1: Materials repository with course module filter and secure upload dropzone.

Step	Control	Interaction	Storage Result
1	Course Module Filter	Select course from dropdown.	Filters file list to show materials assigned to the selected topic.
2	Upload Materials CTA	Click or drag & drop files (PDF, PPT, ZIP up to 50MB).	Uploads to private Supabase Storage bucket with presigned download URLs.
3	Uploaded Digital Files	Table of files with title, size, upload date, and uploader name.	Provides instant download link or deletion action for obsolete assets.

09 Daily Attendance Tracking & Roll-Call

Route: /attendance

Daily roll-call attendance system with real-time automated saving. Tracks attendance percentages required for certificate issuance eligibility (75% threshold).

Figure 9.1: Attendance roll-call roster with date picker, quick-mark actions, and student grid.

Step	Control	Description	Action Performed
1	Batch & Session Date	Select target course batch and choose attendance date.	Renders official student roster for the selected cohort session.
2	Bulk "Mark All Present"	One-click green action button at top of roster.	Instantly marks every student in the cohort as "Present" with a single click.
3	Roll-Call Roster	Individual student rows: click [Present], [Absent], [Late], or [Excused].	Changes trigger debounced autosave; green confirmation badge verifies database write.

10 Assessments Studio & Google Forms Sync

Route: /assessments

Create academic tests, sync Google Forms and Sheets responses, input evaluation marks, and record qualitative trainer remarks in the Grading Studio.

Figure 10.1: Assessments Studio with test creation CTA, Google Forms import, and Grading Studio.

Step	Action	Description	Result
1	New Test CTA	Click "Create Assessment". Enter title, max score, pass threshold, and course.	Publishes assessment to course syllabus and initiates student evaluation tracking.
2	Import Google Forms	Click "Import" to link a Google Form or Google Sheet URL.	Preserves form/sheet links and imports student score columns automatically.
3	Open Grading Studio	Click "Grade" next to any test to open the evaluation interface.	Review student submissions, input marks, type qualitative feedback, and save evaluations.

11 Certificate Issuance & QR Verification

Routes: /certificates & /verify

Issue officially authenticated completion certificates. The system automatically enforces two prerequisites: (1) 100% tuition fees cleared, and (2) Assessment pass threshold met.

Figure 11.1: Certificate registry displaying issued credentials, verification codes, and PDF generation.

Step	Control	Prerequisites & Action	Output
1	Issue Certificate CTA	Click button next to an eligible student with cleared balance.	Generates unique verification code (e.g. VREF-CERT-1048-A9B8) with timestamp.
2	Eligible & Issued Registry	Table displaying student name, course, issue date, and certificate ID.	Maintains an immutable record of all certified graduates.
3	Official PDF with QR	Click "Download" to generate vector-grade certificate PDF.	Renders printable certificate with ThoorigAI seal, signature, and scan-to-verify QR code.

12 Business Intelligence, Reports & Audit Log

Routes: /reports & /audit-log

Export financial and academic analytics, and inspect the chronological database audit trail with correlation IDs.

Figure 12.1: Financial reports tab showing monthly collection run-rates and GST tax liabilities.

Step	Tab / Report	Metrics Provided	Export Capability
1	Financial Revenue Reports	Tuition collected, course revenue breakdown, and GST tax collected summary.	Click "Export CSV" to download accounting spreadsheets ready for Tally/Excel.
2	Export Accounting CSV	Top CTA button generating structured CSV ledger.	Exports transaction records with invoice IDs, student details, and tax breakdowns.

Academic Cohort Performance Analytics
